

Spanish: Year 9 Overview

Autumn 1: Media

Students will talk about their use of phones and computers as well as TV programs and movies. This will be an opportunity to revise what was seen last year and consolidate some more developed language.

Autumn 2: Next weekend plans

Students will use the future tense to talk about the plans they have for the weekend. They will extend the work done in year 8.

Spring 1: Health

Students will learn body parts and start talking about health issues and remedies so they can prepare towards role play.

Spring 2: Health

Students will do the role play and develop the GCSE speaking skills.

Summer 1: Holidays

This topic will allow students to use all tenses but also all the extended vocabulary to talk about holidays. That will help them know if they feel GCSE ready and make their choice.

Summer 2: Holidays

Students will finish the topic of holidays and start working on cultural projects to discover the Spanish speaking culture.
